Kickoff meeting

Project Overview

Your company is needing a new tool to manage the multiple projects currently in development

The main idea is to allow project leaders to track and manage projects, tasks, and team members.

Product Features:

Admin Module

- Login {/ Logout} to the system
- Create {/ View / Edit} users
- Create {/ Edit / Delete} projects
- Add/Remove project members / leader

Project Overview

Team Tasks

☐ Table view

This week

Schedule a meeting for tomorrow		Working on it	
Design our blog		Stuck	
Elevate website Design		Done	

Next week

Schedule a meeting for tomorrow		Working on it	
Design our blog		Stuck	
Elevate website Design		Done	
Elevate website Design		Done	

Product Features:

Project Leader Module

- Login {/ Logout} to the system
- Create {/ View / Edit} tasks
- Add/Remove project members
- Assign tasks to project's member
- List tasks
- List Members
- See Member statistics

Project Overview

Product Features:

Project's Member Module

- Login {/ Logout} to the system
- View tasks
- Change tasks state
- List tasks
- List Members
- See own statistics

Cross-functional projects		
<input type="checkbox"/> Table view		
Q1		
Blog redesign		Working on it
iOS app		Done
Product launch		Stuck
Q2		
Company conference		Working on it
YouTube channel		Stuck
Revamp employee onboarding		Done
New email campaign		Done

Project Overview

Product Features:

Feature	Description	Access Restriction
